

PROJECT NAME: Ashley Creek Restoration Project

RECIPIENT: Vernal City

LOCATION: Vernal, Utah

PURPOSE: This is a vital environmental restoration project for the Uintah Basin. The site is part of a 12-mile reach that was straightened and enlarged (dredged) by the Ashley Creek Clearing and Snagging project constructed by the Army Corps of Engineers in 1966. The restoration project would modify the features of the clearing and snagging project by reconstructing stream meanders and replanting associated riparian vegetation on the reach of Ashley Creek most adversely affected by the flood control work.

AMOUNT: \$500,000
